Dear members

It is with the greatest gratitude that we thank you for your most generous donation. This money allows us to give families who are going hungry food.

This money allows us to make homemade soup then freeze it and have it available for anyone who may be going hungry and is in immediate need to feed themselves or their families. We also try to keep on hand a supply of other foods such as bread, crackers, beans and rice.

Poverty and hunger are two of the biggest issues facing families in our communities today. So again thank you for enabling us to feed these families.

Respectfully
