

Maddison Rose Draper Earl

Dear Davey Derby,

We would like to take this opportunity to extend our deepest gratitude to your organization for the recent donation we received for Maddison. Fifty some odd days ago our lives were turned upside down and for ever changed when 2 1/2 year old Maddison Rose was diagnosed with Hepatoblastoma, a very rare cancer in children of her age. Maddison has a long road of treatment ahead of her and from what we understand a lot of it if not all of it will have to take place in Vancouver at Children's Hospital. Maddison's home is in Crofton so our family has had to situate ourselves in Vancouver and this has created a financial strain. Our community has been incredibly generous to us and with groups such as yours supporting families like ours you have helped make the stress of the financial situation that much less for us. In the future when our beautiful Maddison is living a normal life again we hope to help support groups like yours and others that help make our world a better place by helping those that are in need.

Thank you again for your generous support we will be forever thankful to you and those people that help support The Davey Derby and make donations such as the one we received possible.

Sincerely

Maddison Roses' Family
